

W-W Equine Systems

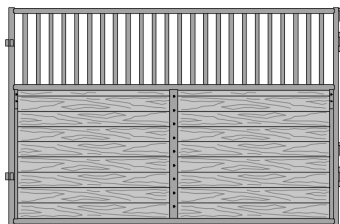

W-W Classic Stalls

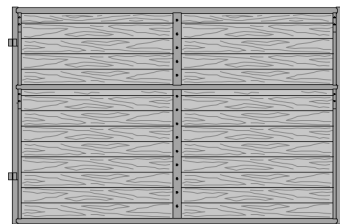

Vertical Rail Stall Front

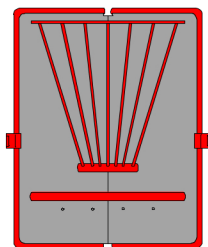

Vertical Rail Stall Divider

Solid Stall Divider

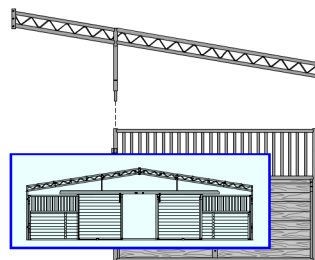

Classic Swingout Feeder

All ClassicStall components are constructed from A-513 High Tensile steel tubing with 50,000 P.S.I. yield strength. All joints on framework are saddle cut for extra strength. All units interlock with self-contained, permanently Attached drop pins. Doors roll quietly on rust free cannonball wheels that never need lubricating.
