MAS-P

PORTABLE GROUP ANIMAL SCALE

Reliable Animal Weighing in All Environments

The MAS-P Portable Group Animal Scale has taken Rice Lake's popular animal scale and made it portable, improving the scale's efficiency and versatility—accurate weighing anywhere, anytime!

Durable Design

The MAS-P's patented design consists of a rubberized deck and pen sides suspended on load cells at four points within a portable base frame. When in transport mode, the cage is locked down to the base frame, preventing cage movement and load cell damage during transport.

Easy to Use

Load is applied to, or removed from the cells through a manual lift/lower lever system.

Rugged Versatility

Rice Lake's onboard weighing design is ideally suited to the unpredictable conditions of multisite use. The MAS-P can provide Legal for Trade weights in locations where the scale may be off level by as much as four degrees or six percent.

In addition to the scale's ability to meet the physical demands of remote weighing, the instrumentation package that complements the scale provides a complete report for each batch and lot of animals weighed. When the scale is in weigh mode, the deck is only six inches off the ground, and the low-profile rubberized weighing platform makes loading and unloading animals quick, easy and safe.

Legal for Trade

Rice Lake's MAS-P portable animal scale is certified for commercial use in both the United States and Canada.

Features

The MAS-P includes a rubberized deck and premium-quality powder paint. Two standard gates and rubber T-belt on entry and exit are also included.

05/16/2017 10:45AM			
#/id	Weight	UN	Avg Wt
4	3335	lb	834
7	6670	lb	953
13	13335	lb	1026
24	23340	lb	573 Gross
	22757	lb	948 Net
			2.50% Shrink

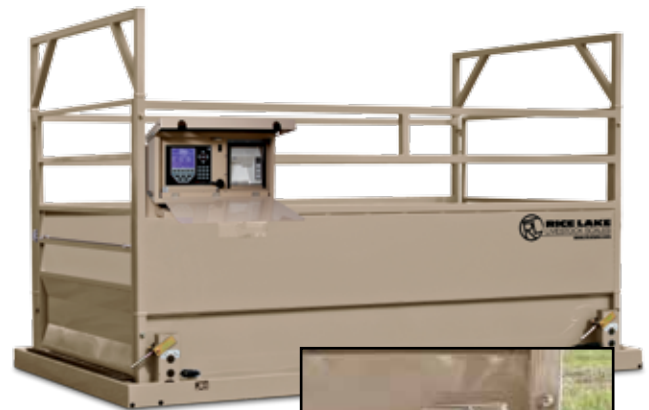

ONBOARD WEIGH CENTER

The weigh center is conveniently mounted on the exterior of the cage so that all transactions are easily viewed by the operator. A legal ticket can be printed for your records. The weatherproof enclosure protects the instrumentation and printer for years of trouble-free use.
