

Optional Add-on | Installing the Front Closure <https://youtu.be/h3PD4Zmlifg>

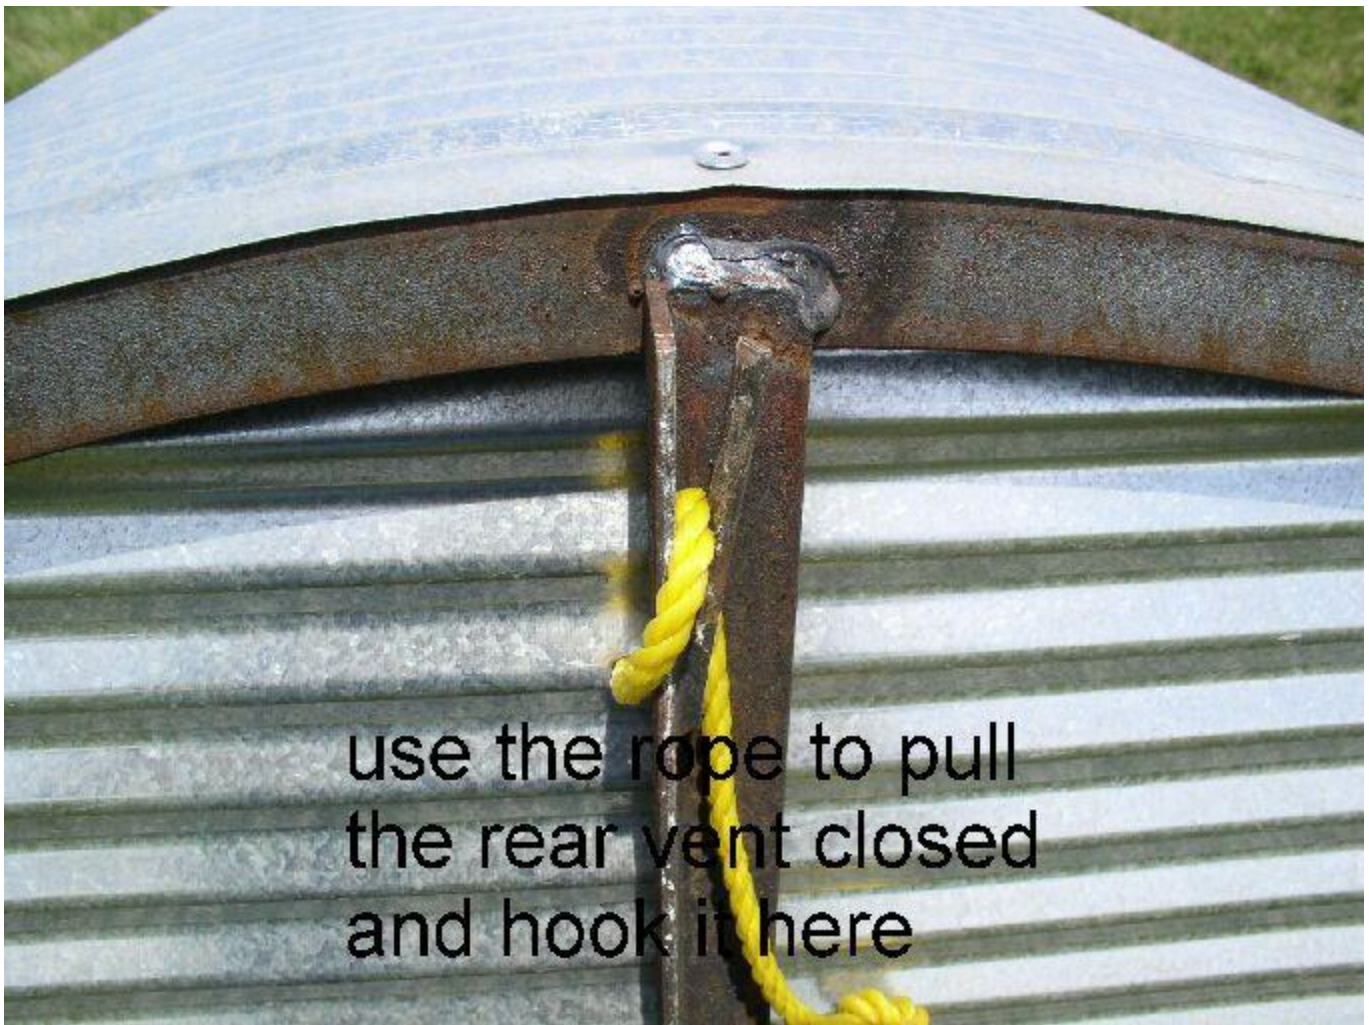

Opening and Closing the Rear Vent

just bend the top part of
the back in to vent the hut

use the rope to pull
the rear vent closed
and hook it here

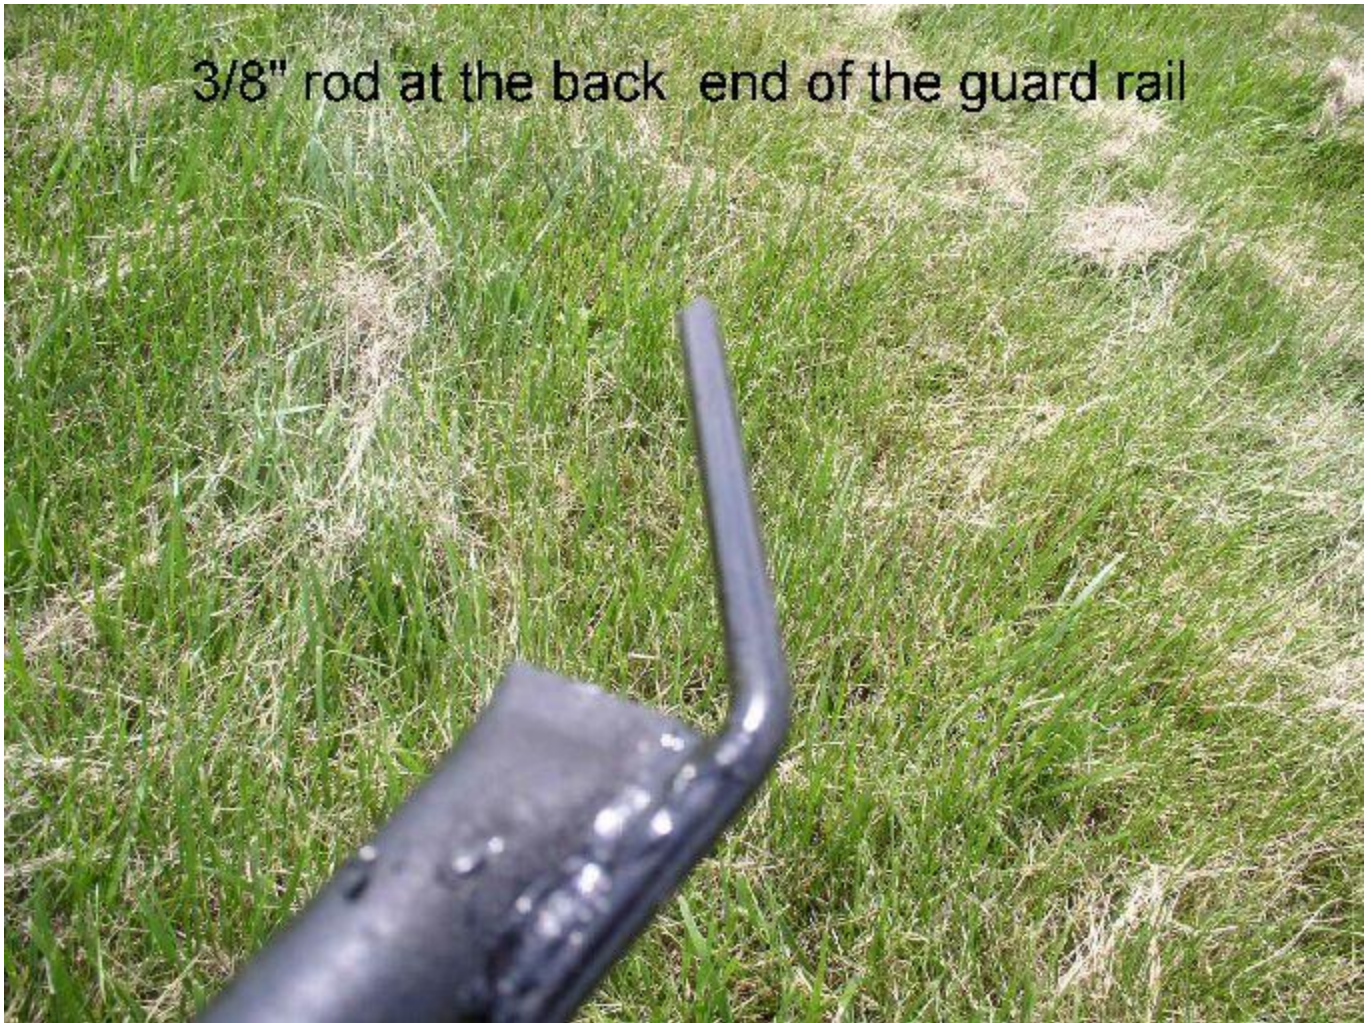

Optional Add-on | Installing the Guard Rail

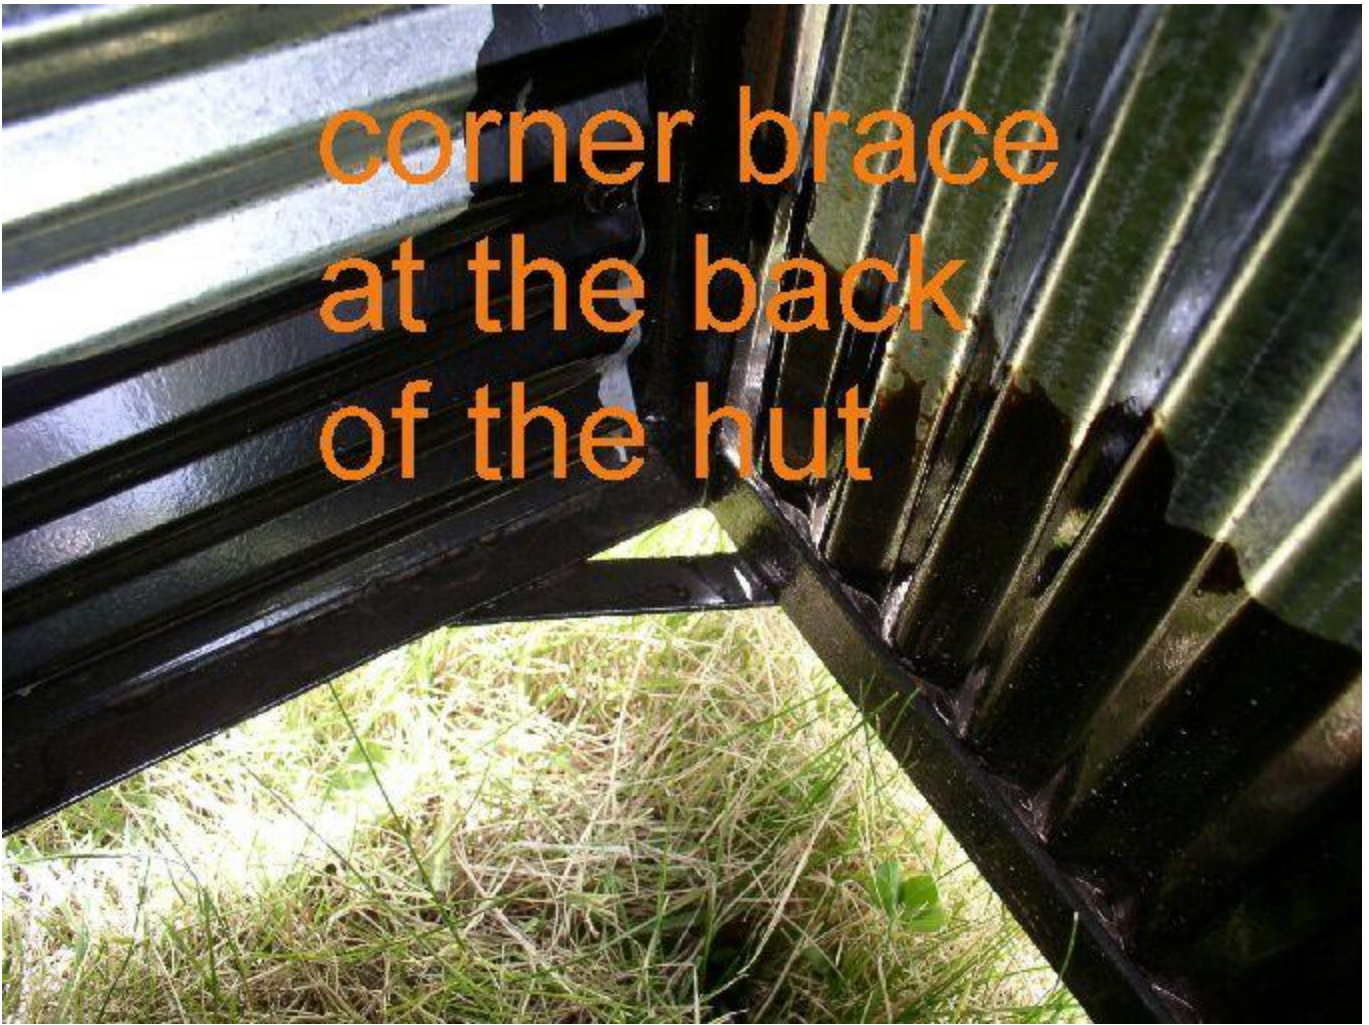

guard rail

slide the two halves together

3/8" rod at the back end of the guard rail

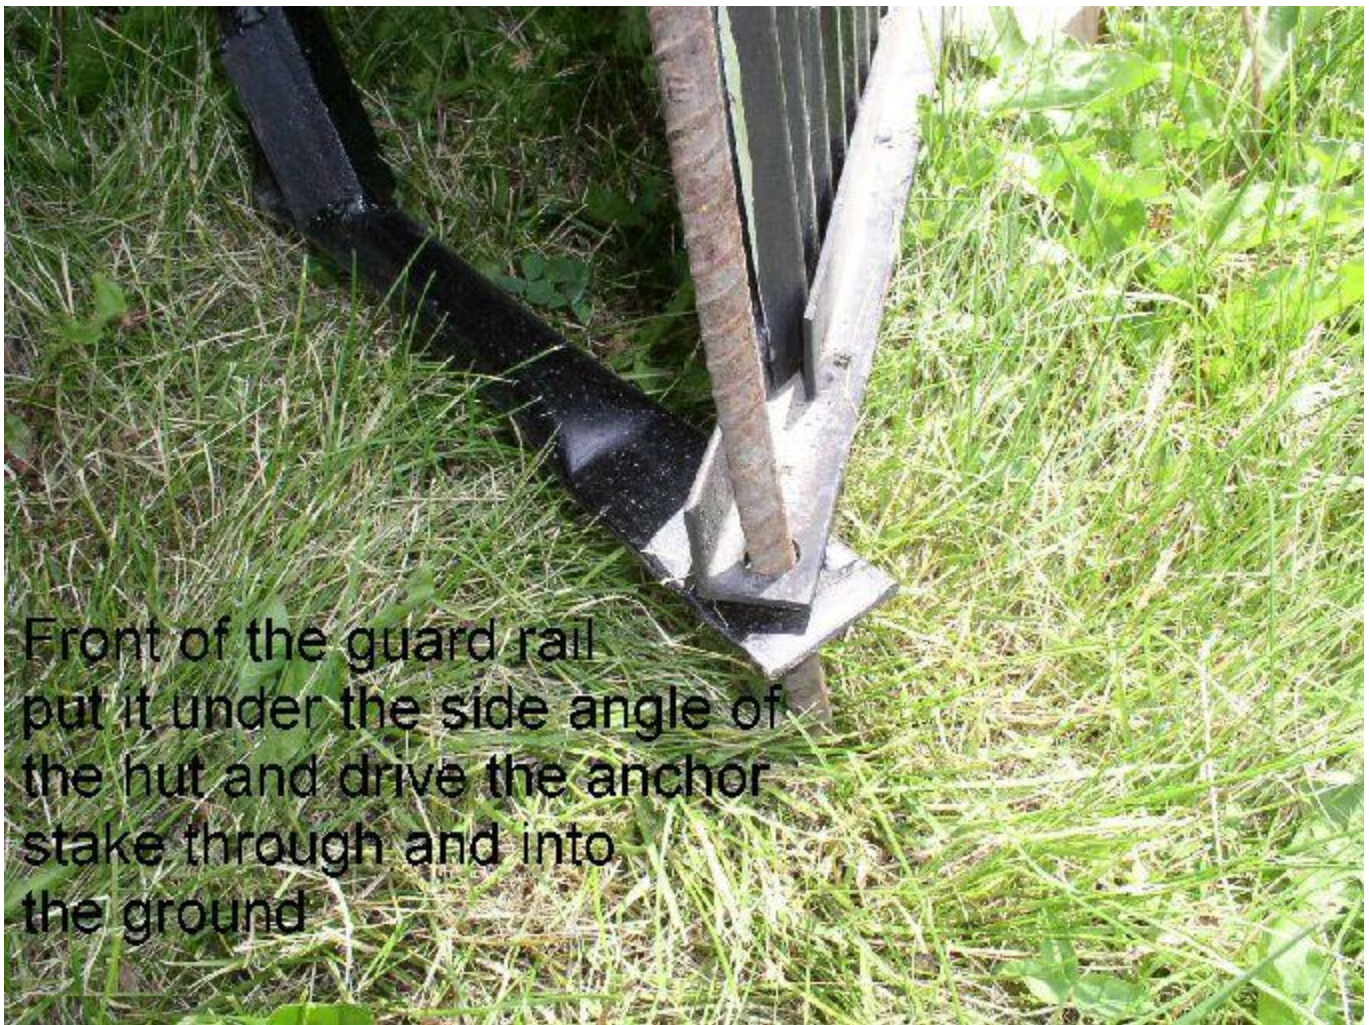

corner brace
at the back
of the hut

putting the
3/8" rod through
the corner brace at the
back of the hut

Optional Add-on | Installing the Pig Rollers

notch at the bottom of the pig roller

hook notches at the
bottom of the pig roller
over the angle at the bottom
of the front closure and push
it up in place

simply use a nail to hold the
pig roller in place
